INDION
AUTOCHEM

The Indion Autochem Ultima Cooling Tower Dosing System is intelligently designed to deliver appropriate solutions to all operational challenges of cooling towers including corrosion, scale and microbial growth. Comprehensive functions and user-friendly navigation allows for ultimate control of your treatment program

The Indion Autochem Ultima sets a new standard in monitoring and control of cooling tower dosing systems through an extensive range of standard and backup functions, flexible input/output choices and accessory timers. Adjustable safety limit feature cleverly allow water and chemical saving whilst protecting your system against overdosing

Specifications

- 7” Touch Screen operation
- User friendly navigation
- Flexible in using third party sensors
- USB port to download and upload settings
- Historical trend graphs on screen
- Adjustable safety limit
- Simple calibration using quick and precise mode
- Multiple timer options
- Special Accessory timers
- Extensive communication choice (2G,3G,4G modem, Wi-Fi, Ethernet)
- Multilayer password protection
- Water Meter inputs
- Low Level tank alarms/Tank level indicators
- BMS communication through 4-20 mA output and Modbus

Standard functions

- Conductivity/TDS
- ORP
- Inhibitor feed
- Single and dual pH control
- Dispersant Feed
- Biocide Timers
- ORP B- Backup ORP
- pH B- Backup pH

Advance functions

- All Standard functions
- Conductivity B- Backup
- Tank Level Indicator
- Support for Third Party Sensors
    - Inhibitor monitoring using fluorometer sensors
    - Corrosion Sensors
    - Turbidity
    - Dissolved Oxygen and more...

Models Available

- Autochem Ultima
- Autochem Ultima Advance
